

Our Services

Adult Dentistry

To promote good long term oral health we place a strong emphasis on prevention. If, however, you do need treatment we will do all we can to save your teeth and maintain your smile.

Children's Dentistry

We always treat our patients as individuals and respond to your needs and concerns. This is especially true for our child patients.

Cosmetic Dentistry

As our practice name suggests we would like to help you to achieve a smile you can be proud of. Bleaching, crowns, veneers and white fillings can improve the appearance of your existing teeth. Bridges can replace missing teeth or partial dentures.

The Wand

Many patients choose "the wand" local anaesthetic delivery system. This computerised system imported from the USA, replaces the traditional dental injection and makes your treatment as comfortable as possible.

see the difference

General Information

Emergency treatment

If you have dental pain every effort will be made to see you as soon as possible. If you need treatment outside of surgery hours, telephone the practice as usual and you will be directed to the emergency dental service.

Members of Denplan Care are able to access to worldwide emergency care and may also contact the principal dentist Dr. Alistair Bartlett directly.

Cancelled appointments

If you need to cancel an appointment please give us 24 hours notice so that we can offer treatment to someone else.

Please note that the full cost of your appointment is still payable if you fail to attend or give sufficient notice of cancellation.

Opening times

i like my smile @ Hadrian Park		i like my smile @ Ashington

DENTAL GROUP

expect more...

...from your dentist

“We aim to provide high quality dental treatment in a relaxed and friendly atmosphere. Our practice ethos is to promote dental health at all times. We recommend regular dental check-ups for everyone with targeted preventative treatments where appropriate.”

Welcome to our practice

Your first visit

The most important thing we can do on your first visit is to listen to you. We will ask you to tell us how you feel about your teeth and your dentistry. If you are worried about anything or anxious about your treatment now is the time to tell us. We will ask you to fill in a confidential medical history questionnaire, so if you are taking any medication please bring the details with you.

When we know how we can help you we will carry out an examination, possibly take some x-rays, and discuss your treatment options and benefits. All treatment options and estimates will be given to you in writing at this appointment. If you would like to bring someone else with you to discuss your treatment or just hold your hand, that's fine with us!

feel confident

Anxious Patients.

Many of our patients have been worried about their treatment or embarrassed about the condition or appearance of their teeth. All members of our experienced team will be happy to discuss your needs before you are introduced to your dentist.

Sedation

If you are an anxious patient we may be able to offer you sedation (twilight sleep). The process will be explained to you by the dentist or a member of our team.

Paying for your treatment

Denplan Care

- Our most popular choice. Denplan Care allows regular dental patients to have almost all of their treatment for a single, predictable monthly fee
- Appointment availability is generally much easier as we offer early morning and late night appointments
- Access to worldwide emergency and out of hours care
- Insurance against the costs of dental trauma

Pay as you Go

- Pay as you Go treatment gives us complete freedom to provide the very highest standard of treatment and materials. We have no restrictions on the type of fillings we provide or how often we see you
- Appointments are longer to allow plenty of time to complete your treatment at a relaxed pace

Denplan Enhance

- Interest free credit
- Spread the cost of your treatment over one to five years
- Allows you to begin your treatment straight away

NHS

- NHS patients are treated with the same level attention and care as our private patients though the government does impose some restrictions
 - Appointment availability may be limited. You may not be able to get appointments outside school or work hours
 - The government impose limits on the amount of NHS treatment each practice can provide. Once we reach our limit we may not be able to offer any more NHS treatment until the next financial year.
 - Some treatments, like white fillings, may not be available under the NHS
- You may be able to have treatment completely free under the NHS. If you have any questions please ask.

How much does it cost?

We will always discuss and agree the cost of your treatment with you before you commit to any fees. An up to date fee guide can be found on our website
